To: **Mrs. Mirela GRECU**

Ambassador of Romania in the Islamic Republic of Iran

Subject: **Export of Gol Afram factory products as raw materials of Romania factories**

Respectfully, Gol Afram company, as a manufacturer of various types of galvanized steel wire and aluminum rod, has considered Romania as one of the important target markets in order to develop the export of its products. Products of our company, galvanized steel wire and aluminum rods are used as raw materials for the cable power industry. On the other hand, galvanized steel wire is used as a raw material in the construction industry and factories manufacturing fence, galfan, gabion, mesh and net. Also, we are supplier of PVC-S70, PVC compound and XLPE compound. Therefore, we hereby request Romania embassy to make the necessary coordination regarding the introduction us to active and reputable power cable factories such as Electroplast SA, Prysmian Cabluri Si Sisteme S.A. - Milcov Plant, Romcab S.A and weaving factories. So please establish our company's relationship with the mentioned factories. The Catalog of Gol Afram company is attached to introduce the mentioned factories.

Dr. Khanbeigi is introduced as the international commercial manager of this company to follow up the negotiations. (mobile & WhatsApp: +989362029688, Tel: +982144927816, email: khanbeigi@golafram.com)

we are eager to receive your feedback.
best regards,

HASSAN TORABI
MANAGING DIRECTOR
